

SOMC Speakers Program

The council is a county-supported collaboration of professionals from the justice system and treatment community. Each member is also available to discuss specific aspects of sex offender management including subjects such as Sexually Violent Predators, community treatment options for probationers, GPS, registration issues, etc. The names of some council members, their area of expertise and contact numbers are included below. You may contact these experts directly to schedule a presentation. SOMC meets monthly to discuss common issues. If you would like to schedule a general education program on sex offenders in the community, please contact Heather Dauler.
